Experience

Travelers Insurance, Saint Paul

IT Intern | June 2019 – Present

Tasks:

- Developed/Analyzed UI code
- Tested UI code and policies
- Validated policy coverages in MongoDB
- Participated in daily standups on SCRUM team

Minnesota State University, Mankato

IT Office Assistant | August 2018 – May 2019

Tasks:

- Assisted IT professors and department chair with tasks
- Worked with IT students on daily basis

PROJECTS

• Travelers Innovation Showcase

Worked with a group of interns and came up with a way for Travelers to utilize social media so that they can have a better relationship with the customers.

• Project Management

Worked closely with Federated Insurance and United Health Group to solve customer – business related problems and created systems to solve these problems. Visit <https://github.com/salmanomar97/Federated-Insurance-Project> for more information

• Programming Scripts

Python, Java source code available at <https://github.com/salmanomar97/PythonWork97>

.
